

Pedagogical and psychological riding

The first thing children need to know is everything about safety at work with horses. It means: no screaming, not to be loud, swift motion and not approaching the horse from back.

The next is a visitation of animal stables and introducing to horses.

The visitation of outside yard and a show of animal food (corn- oats, rye and barley).

Children take up with a horse equipment and how to work with it.

All riding lessons are controlled by specialists which names hipolog. The horse riding proceeds a hall or outside in the yard. It depends on weather.

Every lesson is reported by children to their notices and memories.

The content of concrete lessons

- horse grooming (it takes 20 minutes)
- mount of horse (it takes 5 minutes)
- riding lessons (every child rides a horse about 7 minutes)
- snack (10 minutes)
- making of an individual lesson report (15-20 minutes)
